Search and Rescue  
Inside-Outside Team Concepts  
Riding Assignments  
Offensives use of aerial apparatus  
Ladder placement and setup for rescue  
Roof operations  
Working with the engine company

## About Truck Academy

This very aggressive, hands-on 3 day program incorporates truck company operations, truck company officer strategy and tactics, aerial apparatus practices concepts capped off with several intense scenarios. The instructors will bring their “best practices” and “down and dirty” skills to showing how they can work for your department regardless of staffing.

**This program is appropriate for  
firefighters and company officers.**

**Note: PPE and SCBA required for class participants.  
May 4th session starts at 6:30 pm.**

**The lead instructor: Captain Greg Barnas, Jersey City Fire Dept.**

## Captain Greg Barnas, Jersey City (NJ) Fire Department

Greg Barnas is a 30 year fire service veteran. He has nearly 27 years of service with the Jersey City Fire Department. During his career he has worked in various stations within the densely populated, diverse confines of Jersey City. Specializing in truck company operations, he has instructed various programs in many departments across the country. Captain Barnas is currently assigned to Ladder Company 6.
